Yamin

Mern Stack Developer With NextJS & React Native

3+ years of experience as a Mern Stack developer with NextJS & React Native. As a developer, I know how to provide all the features for production and development. I always try to create mobile-first, responsive, SEO-friendly modern websites and learn more technologies to enhance my development skills. I am experienced in NextJS (ReactJS) and React Native. In building time, I focus on quality coding, understanding coding, git commit and good teamwork.
